

Volunteer Background Check

For the protection of all children at iCademy Global, and in compliance with Michigan State Law, we process background checks on all adult volunteers (yes, even grandparents) spending time with our students. Background checks are required for all persons, regardless of the length of time they will be volunteering (one time during the year, one time each month, one time each week, chaperoning a field experience, assisting with a stewardship day, etc.). Background checks need to be updated each year.
